# Limbertwig

First Table of Contents:

1. Introduction P. 3
2. Generalized Double Forward Derivatives P. 5
3. Generalized Reverse Double Integration P. 7
4. Real Analysis of Phenomenological Velocity P. 9
5. Symbolic Analogic P. 20
6. Anterolateral Algebra 1 P. 22
7. AnteroLateral Algebra 2 P. 24
8. Energy Numbers: Numeric Energy Quanta from Apriori Symbolic Analogical Quasi-Quanta P. 30
9. Semantics In Tensor Calculus: Applications to Set Theory P. 46
10. Meta-Spatial Calculus (Theory of Group Integration) P. 58
11. A New Function of Homological Topology P. 69
12. Quantum Algebraic Homologies P. 74
13. Gravity Waves and Angular Momentum P. 77
14. Energy Numbers on the Infinity Tensor P. 80
15. Star, Circ and Tor Relations P. 83
16. Algorithm Input Code to Symbolic Representation P. 95
17. Logic Vectors: A Geometry of Logic P. 99
18. Oneness to Logic Vectors P. 117
19. Escapades in Lateral Functors Non-Linear Equations P. 122
20. Annihilation Logic Mappings P. 136
21. Infinity Tensors the Riemann Hypothesis P. 142
22. Green's Functions of Tensor Calculus for Generalized Strange Attractors Satisfying Riemann's Hypothesis P. 154
23. Universal Translator P. 165
24. Pro-Étale P. 167
25. Fractal Morphisms, Topological Counting, N-Waves, Congruent Integral Methods, Etc. P. 177
26. Monte Carlo methods P. 221
27. Handy Functor Cheat Sheet P. 230
28. Logic Vector Version 8 P. 235
29. Universal Laws; Actual k-theory P. 238
30. Real Numbers A Projective Scheme P. 246
31. Energy Numbers 2 P. 250
32. Patternizing Psilocybin in Logic Space P. 259
33. MescalinE in Logic Space P. 282
34. Deprogramming Zero V2 P. 290
35. Novel Branching on Integrals P. 296
36. InterSpace Calculi P. 301
37. Raising the Dead P. 304
38. Mina P. 324
39. NiMiKi P. 329
40. KXP and MIL Functors: Expect Definitions P. 333
41. Transbulons P. 334
42. Limbertwig P. 337
    - A. Limbertwig Imaginary OS Math Kernel Sheaf
    - B. Limbertwig Lateral Algebra.app P. 342
    - C. Limbertwig Logic Vector.app P. 344
    - D. Limbertwig Sheaf Mod.app P. 347
    - E. Limbertwig Height Brake.App P. 350
    - F. Limbertwig Star Traveler.App P. 353

G. Limbertwig Trans-Linguistic Calculus (For Infinity Algebra Applications) P. 355
H. Limbertwig: Emotive Calculus P. 360
I. Mechanics of Machine emotions
43. Further Commentary on Energy Number Synthesis (On the Synthesis of Energy Numbers from Infinity Meaning Equilibrium Statements) P. 389
44. Vector Wave through Calculus Syngergizes Quasi Quanta to Transcendental Numbers Synchronistically from Infinity Meaning Notations.
